It has been the anxious desire of all nations, in all ages of the world, that family genealogies, from their original foundations, should be correctly recorded and transmitted to future generations; and posterity love to trace back their progenitors, in an uninterrupted line, to the earliest periods. The spreading branches of the Genealogical tree, from the stock of the Pilgrims, will ever command admiration and respect; and among these, the name Thacher is not the least deserving of a grateful and perpetual remembrance.

Preface

Over sixty years ago, about 1910, Mr. John R. Totten as a member of the New York Genealogy and Biographical Society compiled a genealogy of the Yarmouth branch of the Thacher-Thatcher family. He was himself a part of the Thacher family on his mother's side. She being Julia Hubble Thatcher Totten, 1823-1906, wife of Lieut. James Totten, 1818-1871, U. S. Army. Because of his great interest in his family, and genealogy, he began the task of compiling his side of the family, the Yarmouth Thacher-Thatchers. He compiled and published a genealogy of the Yarmouth branch of the Thacher-Thatcher families for the New York Genealogy and Biographical Record, in 34 parts, to about 1918.

In Mr. Totten's genealogy of the Yarmouth Branch of the Thacher-Thatcher family he commended highly the help and cooperation he received from all Thacher-Thatcher families, and he was particularly appreciative to the Hon. Peter[8] Thacher (1810-1894) of West Newton, Massachusetts, who for many years previously to his death devoted much time and money in endeavoring to clear up the record of the English origin of the Yarmouth-Boston branches of the Thacher family as well as to collect a definite record of the Thachers in the United States.

On May 18, 1882, Peter[8] Thacher published a small pamphlet in which he foreshadowed the conclusions of Mr. Totten in his compilation of the English record of the family.

Peter[8] Thacher's son Stephen[9] Thacher, esq., of Boston, Massachusetts, heir to the manuscript collections of his father relating to the Thacher family, gave Mr. Totten temporary possession of the documents during his period of compilation of the English Origin and genealogy of the family. It is also noted that, The Hon. Peter[8] Thacher was very much aided in his genealogy work by Miss Julia W. Redfield of Pittsfield, Massachusetts, who also generously presented Mr. Totten with her entire manuscript collection bearing on her study of the Thachers in England and the United States. In collecting and compiling the English records of the Thacher family, The Hon. Peter[8] Thacher was assisted greatly by Mr. J. Henry Lee, the American genealogist who made a specialty of unravelling knotty questions of English ancestry. The results of his research made in England, and submitted to the Hon. Peter[8] Thacher, was so complete and satisfactory as to be invaluable to Mr. Totten during his own search, which enabled him to make definite conclusions on the English origin and genealogy of the Thacher family.

In Mr. Totten's Thacher-Thatcher genealogy of the Yarmouth Branch of the family, he particularly acknowledges the excellence of the work of his predecessors in this field, and to record in the name of those of Thacher blood the debt due to Hon. Peter[8] Thacher and to Miss Redfield for clearing this field of many preliminary obstacles; and to record his endorsement of Mr. Lee's exhaustive and clearly submitted reports on the results of his search in England upon the Thacher family.

Mr. John Reynolds Totten was an ardent student of genealogy and an outstanding gentlemen in the minds of many and particularly so, to all the Thacher-Thatcher families in America who refer to and study his compilations with interest and respect. Mr. Totten became the First Fellow of the New York Genealogy and Biographical Society on April 16, 1924. In memory of Captain John Reynolds Totten we include a biography of his life as contributed by Howard S. F. Randolph, F.G.B.S., Los Gatos, California.

A résumé of the life and work of John R. Totten, Yarmouth Branch, of the Thacher-Thatcher family can be found in volume one:

Progenitors and Descentants

INTRODUCTION

Rev. Peter[1] Thacher, 1545-1624, of Queen Camel, England, is the earliest known Thacher ancestor of the Yarmouth and Boston Branches of the Thacher-Thatcher families, and he is probably the most remotely known ancestor of the majority of Thacher-Thatchers in America.

In America Thomas[3] Thacher, 1620-1678, is the emigrant ancestor of the Boston Branch of the Thacher-Thatcher family.

Mr. Totten during his many years of compiling genealogies collected a great deal of information on the Boston Branch of the Thacher-Thatcher family, recording it on manuscript forms in his own handwriting. From these forms, library books, family records and pamphlets, and many individual family sources and collections, two compilations concerning the Boston Branch Thacher-Thatcher families have been compiled.

Volume Two

In both compilations only Thacher-Thatcher sons have been extended. Thacher-Thatcher daughters have been extended to include their marriage and a listing of their children up to about 1906. James Peter[9] Thacher's descendants, however, have been extended to about 1970.

The information contained in these two compilations has been developed for our family records, but it is hoped they will be a helpful source of beginning for many Thacher-Thatcher families. And, even though the reference book information is limited to names, birthdates, birthplaces, occupations, marriages, and issues, a compiler should be able to trace a direct line of ancestors back to 1545, providing, of course, that he or she can first identify themselves, their family, their father, their grandfather or their great-grandfather in the reference book index of given names or marriage names.

Volume One is a compilation concerning Thomas[3] Thacher's family, his ancestors, and his descendants, and the dedication text has been expanded to include a biography of his life along with biographies of other Thacher progenitors and descendants. Also in the text of this compilation is information on varied subjects for posterity reasons, and, concerning Thomas[3] Thacher's ancestors and/or descendants.

The reference book, Volume Two, has been prepared for easy use by a system of numbers to locate Thacher-Thatcher (Boston Branch) ancestors and/or descendants.

First: locate a given name in the Reference Book Index. For instance, to locate James Thacher, born November 28, 1773, use the alphaindex of first names, section one. You will find:

James, 11/28/1773, 152

The reference number 152, is the Identity of James Thacher.

Second: leaf through the Reference Book Text to Identity 152. Under the Identity number 152, you will find

the number 25. This is the identity number of John Thacher, James Thacher's father. By following back in continuance, a direct line of ancestors can be obtained.

The Descendants of James Thacher can be located by their Identity numbers shown on the same line as their name. For instance under Identity 152, James Thacher's son is noted:

Theron 273
born January 10, 1800,
died September 28, 1888

The Identity of Theron is number 273 located further on in the text. Also under 273, you will find information concerning Theron's wife and his children. The descendants of Theron's family can be found in a similar manner.

Third: if a marriage name is used to locate a Thacher-Thatcher family, refer to the index of marriage names, in Section Two of the alphaindex. For instance, the marriage name Abel, you will find:

Abel, Benjamin, Lydia, 1/28/1776, 153

This listing refers to Benjamin Abel, Lydia Thacher, the date they were married, and Lydia Thacher's Identity number, 153.

Using Lydia Thacher's Identity number 153, you can locate her family in the text.

As stated earlier, however, a further extension of Lydia Thacher's children has not been made. Only the Thacher-Thatcher sons have been extended where possible at this time, and his descendants, and the dedication text has been expanded to include a biography of his life

along with biographies of other Thacher-Thatcher progenitors and descendants.

In compilations of information such as this, it requires the handling and rehandling of many numbers and many names, many times, from many family sources, and in doing so there will always be corrections. So if a tracer develops more authoritive information from other numerous sources on Thacher-Thatcher identities, please do so in the spirit of these two compilations, Family Interest and Posterity.
